

Ethernet In the First Mile Internet

CRITICAL INFORMATION SUMMARY

Information about the service.

Here's a quick summary of all the important bits about your **Ethernet In the First Mile Internet** plan.

It covers things like the length of your contract and how much you need to pay each month.

MINIMUM TERM

The minimum term is **24 months**.

What's Included and Excluded?

Your Ethernet in the First Mile Internet service includes:

- **Static IP Address**

You receive an **Unlimited Data Allowance** each month. There are no peak or off peak restrictions on your use and no excess usage charges.

Information about pricing.

The monthly charge depends on how fast you want your connection and the amount of wires needed to provide the service as close as possible to the bandwidth that you choose:

Access Speed	Charge
1Mb/1Mb (2 Wire)	\$319.00
10Mb/10Mb (4 Wire)	\$359.00
10Mb/10 Mb (6 Wire)	\$559.00
10Mb/10Mb (8 Wire)	\$799.00
20Mb/20Mb (8 Wire)	\$859.00

The total minimum amount that you will pay for the length of your 24 month contract depends on the plan that you choose:

Access Speed	Total Minimum (24 Months)
1Mb/1Mb (2 Wire)	\$7,656
10Mb/10Mb (4 Wire)	\$8,616
10Mb/10 Mb (6 Wire)	\$13,416
10Mb/10Mb (8 Wire)	\$19,176
20Mb/20Mb (8 Wire)	\$20,616

CONNECTION CHARGE

The installation fee is **\$699** for all speeds and is a one off payment. This is for connection scheduled during business hours. Should you require connection outside standard business hours, we will provide a quote.

EARLY TERMINATION

If you choose to cancel your service or it is disconnected for any reason within the contract term you will be charged an early termination fee (ETF) comprised of your minimum monthly commitment multiplied by the months remaining in your contract. You must provide 30 days' notice to us to disconnect a service

Other Information

AVAILABILITY

Ethernet in the First Mile Internet is not available everywhere. Availability depends on a number of factors including whether the necessary equipment is available at the relevant exchange, the length of the cable to the nearest exchange and the quality of the existing copper pairs that the service runs over.

You need available copper lines in order to get Ethernet in the First Mile Internet, but the line must not be active and in use as a PSTN telephone service. In some cases you may not have enough copper lines at your location for the service to work

ETHERNET SPEEDS

- Actual speeds you will receive will vary due to a number of factors such as your distance from the exchange, the network connecting the exchange, your equipment, software and internet traffic.
- Download speeds on devices connected via a Wi-Fi modem or network extender may be slower than on devices connected by a fixed Ethernet cable.

EQUIPMENT

You may use your own router provided it is compatible with our service, however this means that you will be responsible for the configuration and management of the router. Ask us for information on approved routers. Alternatively you may purchase your router from us. If you do purchase a router from us we will support, monitor and manage the router on your behalf. We recommend Cisco 881 routers which are **\$660** each.
